

**YOUR PARTNER FOR
DRIVES & SYSTEMS**

ABOUT US

We have been your reliable partner for drive systems since 2000.

We offer customised series production for both small and large quantities.

PRODUCTS – CUSTOMISED SOLUTIONS

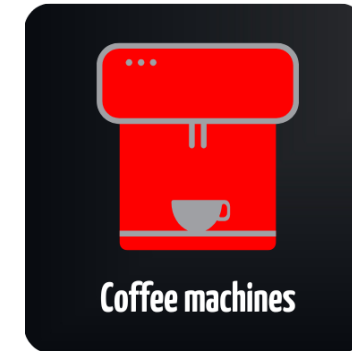

Our customised solutions are used in numerous industrial applications. For example, in medical technology, the food industry, safety technology, water treatment as well as heating and air conditioning technology or, for example, in the following applications:

Universal motor as a drive in drum pumps for media such as diesel, heating oil, AdBlue or antifreeze.

AC frame magnet for actuating the pawl in the safety switch.

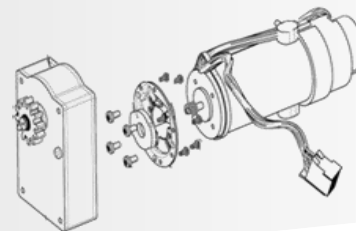

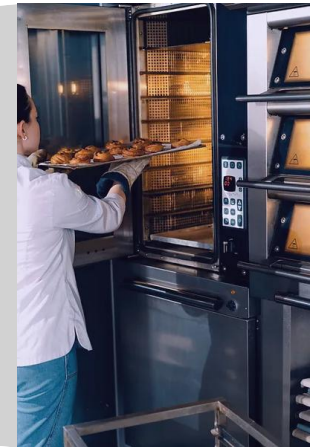

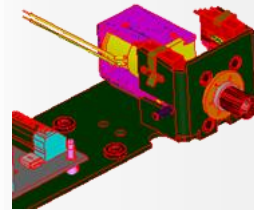

DC planetary geared motor with encoder for height adjustment of the outlet assembly

PRODUCTS - ASSEMBLIES

As a reliable partner for electromechanical assemblies and systems, we are at your side every step of the way. From design and development to production and delivery. We manufacture the following assemblies, for example:

Interlocking units / guard locking

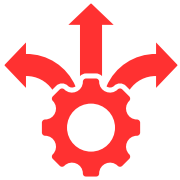

- Solenoid or motorised drive
- Currentless locking, unlocking or pulse-controlled
- Position monitoring, e.g. via microswitch
- Redundant versions
- Customised dimensions

Drive systems

- AC, DC or stepper motor technology
- Helical, angular or planetary gearboxes
- Batch tracking in the ERP system
- Dynamic & static load testing
- Complete documentation of the test data

YOUR BENEFITS

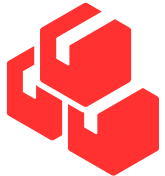

FLEXIBLE

We are happy to customise stock items to your requirements and deliver them at the desired time.

FAST

Items in stock are ready for dispatch within 24 hours.

QUANTITIES

Depending on requirements, from one unit to several thousand units.

EXPERIENCE

With over 25 years of experience, we have the necessary expertise for your applications.

**We are always at your disposal
for your concerns and queries.**
